

PECB CERTIFIED ISO 21500 LEAD PROJECT MANAGER

MASTER THE PROJECT MANAGEMENT BASED ON ISO 21500

SUMMARY

This five-day intensive course enables participants to develop the necessary expertise to support an organization in implementing Guidance on Project Management as specified in ISO 21500:2012. Participants will also gain a thorough understanding of best practices used to implement and manage project management processes. Through this course, participants will learn how to control costs and improve project results. Organizations will improve its project management continuously by carrying out refinement assessments (plan-do-check-act).

ISO 21500 is a useful instrument for any kind of organization, including public, private or community organizations and for any type of project, irrespective of complexity, size or duration. It provides quality guidance on concepts and processes of project management that have impact on the performance of projects. Being one of its kind in the planned family of project management, other market standards (IPMA, PRINCE2) and existing ISO standards (ISO 9001, ISO 10006 and ISO 31000) have been used as reference materials for developing ISO 21500.

WHAT CAN BE GAINED BY ISO 21500 TRAINING AND CERTIFICATION?

During the last decades several attempts have been made to determine the relationship between the maturity level of a company and project performance. After studying projects with 200 different organizations in 30 countries, it resulted that the lower the maturity levels of the company, the higher the chance of project failure. Therefore, ISO 21500 training courses help your organization to reach a higher level of maturity, which will undoubtedly lead to cost reduction by 30%, minimize risk of project failure, and will enhance the effectiveness of your projects. Moreover, your company will also benefit:

- ▶ Proven quality
- ▶ Widely recognized framework
- ▶ The transfer of knowledge between projects and organizations
- ▶ Integration with specific standards
- ▶ Continuous improvement
- ▶ Business continuity
- ▶ Satisfied employees
- ▶ Having a diagnostic tool for assurance and assessments

WHO SHOULD ATTEND?
