

## PECB CERTIFIED ISO/IEC 27035 INTRODUCTION

### INTRODUCTION TO THE INCIDENT MANAGEMENT PROCESS BASED ON ISO/IEC 27035

#### SUMMARY

This one-day training course enables participants to be familiar with the basic concepts of the implementation and management of a security incident management process as specified in ISO/IEC 27035. Apart from understanding the ISO/IEC 27035 information security incident management standard, participants will gain information on a process model for designing and developing an organizational incident management process.

#### WHO SHOULD ATTEND?

- ▶ Members of an Information Security Risk Management team
- ▶ Regulatory Compliance Managers
- ▶ Members of an Incident Response Team
- ▶ Persons responsible for information security or conformity within an organization
- ▶ Business Continuity Managers
- ▶ Security and Business Process consultants

#### LEARNING OBJECTIVES

- ▶ To understand the concepts, approaches, methods, tools and techniques allowing an effective information security incident management according to ISO/IEC 27035
- ▶ To understand, interpret and provide guidance on how to implement and manage incident management processes based on best practices of ISO/IEC 27035 and other relevant standards
- ▶ To acquire the necessary knowledge to contribute in implementing an ongoing information security incident management program according to ISO/IEC 27035
